SUMMARY

B.Tech graduate in Computer Science (Artificial Intelligence & Machine Learning) with experience working on technology-driven solutions and real-world customer problems. Currently working as an AI/ML Intern at Cuzor, gaining exposure to customer-support operations and analyzing customer interactions to understand recurring needs and issues. Strong communication, presentation, leadership, and problem-solving abilities, with the technical knowledge to understand and communicate technology-based products and solutions.

EDUCATION

LNCT, Bhopal | RGPV
B.Tech — Computer Science & Engineering (Artificial Intelligence & Machine Learning), CGPA: 8.09/10 *2022 – 2026*

MM International School, Jabalpur
Class XII, Percentage: 73% *2021 – 2022*

MM International School, Jabalpur
Class X, Percentage: 77% *2019 – 2020*

EXPERIENCE

AI/ML Intern 2026 – Present
Cuzor

- Working on Cuzor's AI360 initiative, focused on improving customer-support operations and customer experience through AI-powered solutions.
- Analyzing historical customer interactions, support tickets, queries, and resolutions to identify recurring customer problems and requirements.
- Building a customer-support solution designed to retrieve relevant past issues and resolutions for customer queries.
- Developing an understanding of how customer feedback and support data can be used to improve products, services, and customer experience.
- Exploring sentiment analysis to better understand customer feedback and interactions.
- Collaborating on the development and evaluation of technology solutions from business problem identification to prototype implementation.

PROJECTS

AI-Powered Veterinary Healthcare Platform (WLC) | Team Leadership | Customer Problem Solving | Product Development

- Led a team in developing a veterinary healthcare platform addressing accessibility challenges faced by animal owners.
- Identified real-world user needs and helped define features including veterinary assistance, symptom collection, donor search, and healthcare-service access.
- Worked on presenting the product idea, communicating its value proposition, and demonstrating the solution to stakeholders.
- Led the team at a State-Level Idea Hackathon, securing 3rd position.
- Gained experience in team coordination, idea presentation, problem solving, and communicating a technology solution to a non-technical audience.

NLP Sentiment Analysis Project | Customer Insights | NLP | Data Analysis

- Developed a sentiment analysis solution capable of identifying sentiment from textual data.
- Explored how customer feedback and text data can be analyzed to understand user opinions and experiences.
- Applied analytical techniques to convert unstructured text into useful insights.

AI-Based Veterinary Chatbot | AI | Customer Interaction | Technology

- Developed an AI-powered chatbot designed to answer veterinary and animal healthcare queries.
- Focused on making technical information more accessible through a conversational interface.
- Designed and tested interactions to improve the relevance of responses for users.

TECHNICAL SKILLS

Sales & Customer: Customer Engagement, Customer Needs Analysis, Customer Experience, Value Proposition Communication

Communication: Presentation, Public Speaking, Active Listening, Written & Verbal Communication

Business & Leadership: Problem Solving, Analytical Thinking, Team Leadership, Project Coordination
